

CitroSperse™ Red Iron Oxide

TECHNICAL DATA SHEET

Cosmetic-grade pigment dispersions in a patented silicone alternative emollient. CitroSperse™ Red Iron Oxide is a pourable, ready-to-use colorant suitable for use in a wide variety of color cosmetics applications within applicable regulations and limitations.

PRODUCT CODE:	578588
COLOR DESCRIPTION:	Red Iron Oxide
INCI NAME:	Iron Oxides, Polycitronellol, and Polyhydroxystearic Acid
CARRIER TYPE:	Polycitronellol

Properties	Specification
Hegman Grind:	≥ 6
Density (LB/GAL)	Report
Viscosity (CPS):	Report
Pigment Percent:	Calculated
Appearance:	Red Liquid
Odor:	Characteristic
Color (DE, DL, Da, Db):	To Match Standard
Strength (%)	95-105
FDA Guidance For Pigment Type:	<u>21 CFR Part 73.225</u>

Best stored in original sealed container in a cool location out of direct sunlight.
Product may require agitation or mixing prior to use.
